Thanks, Alan & Jayne. I will start with Randy. And if I send any emails, I think I should include Karen Tarnow in the "To" field.

Don,

DEQ did back-fill behind Priscilla. The new employee is Frank Mastrandrea. His e-mail is attached. However, I think the best prime contact for this issue would be Randy Trox. I will ask Priscilla who she thinks would be the best contact.

Alan

Mastrandrea.frank@deq.state.or.us

Subject: OR CZARA - Need to update the OSDS Interim Approval Rationale

Jayne & others,

I have attached the latest version of the interim approval decision document that we plan to send to Oregon at some point on or around 1/30. You will see a couple of comments regarding seeking updated statistics on progress implementing Oregon's new Septic Smart program. I am happy to try to get the updated information from Oregon so we can finalize the OSDS rationale. I am looking for suggestions on who to contact at DEQ and how I should contact them.

My default suggestion is that I should email Randy Trox or Priscilla Woolverton for this updated info, but wanted to see if any of you had a better idea. (I know that Priscilla has moved on to TMDLs, but she may still be the most knowledgeable contact.)

Questions for Oregon DEQ:

- 1) Can the state provide updated figures for the following sentence?
"Although Oregon Septic Smart was introduced as a new program in January 2014, already by July 2014, 95 of the state's approximately 630 certified inspectors statewide (15 percent) had chosen to participate in it."
- 2) Did Oregon DEQ meet its goal for 2014?
"Oregon DEQ has set an interim goal to achieve inspections for 60 percent of residential property transfers involving OSDS in the coastal counties by 2014 and 80 percent by 2020."

Thanks.
